ADRODDIAD

Y

SWYDDOG MEDDYGOL

AR

GYFLWR IECHYD

DOSBARTH AETHWY, MON

AM Y FLWYDDYN, 1966

gan gorffori adroddiad y

SWYDDOG IECHYD

J. G. WILKES, M.A.P.H.I., C.P.H.I.

Y Cadeirydd a Chynghorwyr,
Cynghor Gwledig Aethwy.

Mr. Cadeirydd, Boneddigesau a Boneddigion,

Mae'n anrhydedd gennyf gyflwyno yr unfed adroddiad ar bymtheg blyneddol ar iechyd cyhoeddus y dosbarth am y flwyddyn 1966.

Mae'r amcangyfrif o boblogaeth y dosbarth yn o gyson ers deng mlynedd. Dal i chwanegu mae rhif tai Cyngor, tai preswylledig, treth a'r dreth geiniog. Er fod ychwanegiad mewn genedigaethau, bu ychwanegiad hefyd yn rhif marwolaethau yn y dosbarth. Prif achos marwolaethau ym mysg yr oedolion oedd clefydau y galon, hyn yn gyffredinol drwy'r wlad.

Cofrestrwyd 4 gyda'r T.B. Er gymaint mae'r salwch hwn wedi cael ei reoli mae'n amlwg ei fod yn llechu mewn cymdeithas o hyd. Un o'r pethau y gall yr awdurdod ddal ei wneud yw gofalu fod tai addas ar gael ac na chaniateir gorlenwi aelwyd.

Am unwaith yn rhagor ni fu haint yn y dosbarth a bu safon iechyd y trigolion yn foddhaol iawn. Mae llawer o'r clod am hyn yn ddyledus i waith y meddygon teulu, y cliniclau a'r gweinyddesau.

Teimlir o ganlyniad i ychwanegiad yng nghostau bwyd yn gyffredinol a'r trydan y bod lle i ofni y bydd bywyd yr henoed yn dipyn caletach o hyn ymlaen. Mae perygl iddynt orfod ceisio cynilo trwy dorri i lawr ar eu bwyd a throi y trydan a'r nwy i ffwrdd. Fe olyga hyn brinder gwres. O ganlyniad, hawdd ydyw i wres y corff leihau. Mae gwres corff is na 90°F yn beryg, os o dan 90°F daw marwolaeth. Beth fedr ei wneud i arbed trychineb o'r math hwn. Yn wir, mae'r awdurdod hwn wedi gofalu am dai cymwys i'r henoed. Mae canmoliaeth am hyn i gyd, ond eto yn ychwanegol, apelïaf i bob cynghorwr roi sylw arbennig i'r henoed sydd yn byw ar ben eu hunain yn eu rhanbarth etholedig. Dymunaf gael gwybod am unrhyw oeddrannus sydd mewn y perygl a dynwyd sylw ato.

Ceir eto sylwadau y Swyddog Iechyd yn ei adroddiad llawn a diddorol. Awgrymir fod sylw yn cael ei roi, yn enwedig i'w noodiadau ar yffleusterau cyhoeddus, safleoedd carafanau a chasglu ysbwriel.

Dymunaf ddiolch i'r Clerc am bob arweiniad a ofynir amdano ym holl iechyd cyhoeddus y dosbarth. Hefyd, diolch i'r Cadeirydd, Pwllgor Iechyd a Thai am ei chydweithrediad dymunol.

Ydwyf,

W. ARTHUR JONES.

Swyddog Meddygol Iechyd

REPORT OF THE PUBLIC HEALTH INSPECTOR

FOR THE YEAR 1966

H O U S I N G

Council Building

The following table shows the number of houses completed and under construction during 1966:-

Completed:

Llanfairpwll - 9 houses, 4 bungalows, Warden's house.
Bethel - 2 houses, 4 flats.

Under Construction :

Llangoed - 4 bungalows, 4 flats.
Llandegfan - 2 bungalows
Holland Arms - 4 houses, 2 bungalows.
Llangaffo - 5 houses
Newborough - 12 houses. This scheme provides for a total of 19 houses,
14 bungalows and Warden's house.

The total number of Council owned dwellings at the end of 1966 was 716, the majority of which are of the 3 bedroom type, but in recent years the provision of an increased number of bungalows shows a balanced programme to take account of the needs of the elderly.

Private Building

Private building continues to show a marked increase, 139 houses being completed and a further 84 dwellings were under construction.

Summary of Dwellings Provided by the Council in the Various Parishes

Llanddaniel - 30	Dwyran - 26
Llanedwen - 4	Llangaffo - 10
Llanddona - 26	Llangoed - 65
Llandegfan - 74	Llangristiolus 16
Pentraeth - 56	Llanfairpwll - 92
Trefdmeth - 60	Gaerwen - 31
Hermon - 26	Brynsiencyn - 92
Pennynydd - 20	Llansadwrn - 20
Newborough - 68	

Total 766

Improvements to Pre-War Council Houses

The Council have continued its policy of providing water-closets and bathrooms to these older type properties, 41 of which remained at the end of 1965. During the year a scheme was prepared for such improvements to be carried out in respect of 20 houses at Tawelfan, Llangoed, and completion is expected reasonably early in 1967, depending on modifications to the sewage disposal works.

Improvements to 10 houses at Llanddona and Llanedwen were completed during the year.

Housing Improvements

54 applications were approved for the improvement of dwellings by means of a Discretionary Grant and 29 applications by means of a Standard Grant, as compared with 33 and 31 respectively in 1965. Works of improvement were completed in respect of 36 properties (23 Discretionary, 13 Standard) and works on the remaining premises will, no doubt, be carried out in the early part of 1967.

Rent Act, 1967

No applications were received and no certificates of disrepair were issued during the year.

Housing Act, 1961 - Section 24

Where dwelling houses have been dealt with by means of a confirmed Clearance Area, a local authority on being satisfied that one or more houses comprised in the Order, have been made fit for human habitation or will if excluded from the Order be made fit, - may submit to the Minister for confirmation an Order modifying or revoking the Clearance Order.

No such proposals have been made to the Council during the year but substantial progress has been made in respect of the following which were dealt with as Revocation Orders in 1965:-

1-6, Hiracl Street	- Gaerwen
65-67, Railway Terrace	- Malltraeth
5 & 10, Chapel Place	- Hemon
2-3, Tai Uchaf	- Gaerwen

Houses in Clearance Areas and Unfit Houses Elsewhere

A. Houses in or Adjoining Clearance Areas

Number of houses demolished	13
Number of separate dwellings contained therein	13

B. Unfit Houses Closed

Number of houses	2
Number of separate dwellings contained therein	2

C. Persons Displaced

From houses to be demolished in or adjoining Clearance Areas ..	2
From houses to be demolished not in or adjoining " " ..	1
From houses to be closed	5

D. Number of Families Displaced

From houses to be demolished in or adjoining Clearance Areas ..	1
From houses to be demolished not in or adjoining " " ..	1
From houses to be closed	2

E. Unfit Houses Made Fit

After informal action by local authority	22
After determination of Closing Order	1
After formal notice (Section 9 & 16)	1

F. Public Health Acts

Defects remedied after formal notices	8
---	---

The Council's major programme for dealing with unfit houses has been has been dealt with over the past 10 years, the greater part of the work being carried out between 1960 and 1965. Since 1956 a total of 131 dwellings were dealt with by means of Clearance Areas and 115 dwellings as Individually Unfit Houses.

RODENT CONTROL

The following table is a record of the work carried out under the Prevention of Damage By Pests Act, 1949:-

	Type of Property	
	Non-Agricultural	Agricultural
Properties other than Sewers.		
1. Number of properties in district	3,695	722
2. (a) Total number of properties (including nearby premises) inspected following notification	317	91
(b) Number infested by (i) Rats	289	75
(ii) Mice	21	3
3. (a) Total number of properties inspected for rats and/or mice for reasons other than notification	357	37
(b) Number infested by (i) Rats	151	25
(ii) Mice	45	11

The Council's several sewage disposal works are visited regularly and treatment undertaken as found necessary. Main sewers are test-baited over a year and the refuse tip is kept under constant supervision.

Summary of Mole Destruction Work

Total number of farms visited	119
" " " " treated	119
Type of Infestation - major	17
--minor	102

WATER SUPPLY

Supplies Other Than County Mains

A total of 27 samples were taken and submitted to the Public Health Laboratory, Conway, for bacteriological examination. Ten were reported as satisfactory and 17 as unsatisfactory. In all cases where adverse reports are received, occupiers are advised to either boil or chlorinate the water before using for human consumption and domestic use.

Mains Water Supply

There is co-operation between the County Water Department on matters arising concerning public supplies and any complaints received are usually given prompt attention although discolouration of the mains supply does occasionally re-occur in some parishes.

The number of dwellings supplied from public mains is as follows:-

- (a) Direct to houses3,122
- (b) By means of standpipe 34

FOOD HYGIENE REGULATIONS

There have been no additions to the 46 premises registered under the Food and Drugs Act, 1955, for the storage and sale of ice-cream and it has not been found necessary to take statutory action against any of the persons occupying such premises. In the main, the shops in the district are of the small village store type and the standard of hygiene appears to be well maintained.

POULTRY ESTABLISHMENTS

There are no commercial establishments for the slaughtering and dressing of poultry, although, no doubt, some of the farms in the district in some small degree provide occasionally for a very limited local demand.

CARAVAN SITES AND CONTROL OF DEVELOPMENT ACT, 1960

The total number of authorised caravans is 427 and during the survey carried out in July and August the caravans on sites numbered 358. Periodic visits are made, particularly to the larger sites; control, maintenance and general management are satisfactory.

There is an increasing tendency in some parts of the district for the touring caravanner to use lay-byes and roadside verges for an overnight stay. The Council may, in the near future, be required to consider providing an "authority owned site" and the introduction of the new car ferry service from Holyhead to Dublin could very well create the need for some form of transit site.

INFECTIOUS DISEASES

The following cases were notified and, where necessary, specimens submitted to the Public Health Laboratory, Conway:-

Measles	39
Scarlet Fever	5
Whooping Cough	5
Food Poisoning	1

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

This legislation mainly provides that the facilities and protection which have for some time been available to the industrial worker shall now also be enjoyed by the non-industrial worker and its aim to secure a higher standard of safety is in keeping with modern industrial trends. No accidents were reported for the period under review.

REFUSE COLLECTION

Porthamel continues to be the Council's tip for dealing with both domestic and trade refuse. Llangaffo - with the owner's permission - has been available as a reserve tip in the event of difficulties arising at Porthamel, and for a period of approximately three months in 1966, Llangaffo was brought into use and I am indebted to Mr. Jones of Hengae Quarries for his co-operation.

The Council placed an order for two 13/25 cubic yard fore and aft tipping refuse collection vehicle with a view to introducing a once weekly collection service to replace the present fortnightly arrangement and subject to satisfactory delivery of the vehicles, weekly collections will commence on the 1st April, 1967.

Owing to the remoteness of Porthamel it is difficult to obtain suitable covering material which in some areas is made available by builders, free of charge, but conditions on the tip at the end of the year were reasonably satisfactory.

With the increase of housing development generally throughout the district it will, no doubt, be necessary to review this service from time to time.

PUBLIC CONVENIENCES

With the great influx of holiday-makers into certain parts of the district the Council will have to seriously consider the provision of these essential facilities, especially at Llanddona Beach and Newborough; Traeth Coch, Malltraeth and Gaerwen, also being treated with the merit they deserve.

Llanddona Beach - This part of the coast is increasing in popularity and attracts large concentrations of people and cars throughout the holiday season. Sanitary accommodation is non-existent, resulting in the misuse of land adjoining the foreshore. The present unsatisfactory condition could constitute a health hazard and should be given attention without delay.

Newborough - The parish of Newborough appears to be developing into a holiday and tourist centre with a large increase in summer population. Public conveniences as such have not been provided but the need for these facilities in the very near future is rapidly becoming apparent.

DRAINAGE AND SEWAGE DISPOSAL

Llandegfan - Work is proceeding according to schedule and completion expected in July, 1967. When the scheme is completed, no doubt, this will lead to further development in that part of the district.

Llangaffo - This work commenced in the early part of the year and it is anticipated that sewers and treatment works will be in operation about September, 1967.

Pentraeth - Consultation and preparatory work have virtually been concluded and the scheme will no doubt commence in the late spring or summer of 1967.

Public sewers have been provided in the parishes of Brynsiencyn, Newborough, Dwyran, Mellttraeth, Hermon, Bethel, Gaerwen, Llanfairpwll, Star-Pennynydd and the Council will no doubt be giving consideration, in due course, to the provision of schemes to serve Llangoed, Penmon and Llanddaniel with a review of the existing arrangements at Llanfairpwll and Gaerwen.

CONCLUSION

I wish to thank all members of the Council and staff for their assistance throughout the year and, in particular, the Medical Officer of Health, for his close co-operation.
